About

White Hat wearing full-stack web developer, with a keen eye for photography and thrill seeking snowboarder.

9 years of industry experience; I develop and build disruptive cutting edge products and experiences using the latest and newest trending technologies to deliver sophisticated and simple to use applications, websites, and virtual/augmented realities.

Learned my craft at Greenwich University in Web Technologies I continue to learn and contribute to the development community through meetups, conferences and online such as Github and Stack Overflow.

Experience

Lead Full Stack Developer: Dauntless - Oct 2014 · Present

I had the opportunity to work on a variety of current trending web technologies such as A-Frame, Laravel, WordPress and CraftCMS. During my time at Dauntless I have had the privilege to lead and managed a number of developers for a wide range of projects, for companies such as Amazon, Bloomberg, OMNI Group, BlueLine Rental, Electro Rent, Schillings, Market Force to name but a few.

Senior Developer: Lexsynergy - Feb 2014 · Sep 2014

During my time at Lexsynergy I had opportunity in gaining experience with Symfony 2 and Doctrine 2.0 as well as the chance to widen my knowledge of DNS. One of my main day to day responsibilities was to conduct maintenance on Lexsynergy customer facing website. I also had the chance of representing Lexsynergy during ICANN London conference.

Senior Developer: Vuma Financial - Sep 2013 · Dec 2013

I had opportunity to gain experience in working with large Object Orientated PHP systems such as Kohana. Some of my responsibilities included implementing security layers and ACL. My responsibilities included managing team of junior developers and carrying out code reviews.

Senior Developer: Digitalbox - Feb 2012 · Sep 2013

At my time at digitalbox I had the opportunity to gain a wealth of development knowledge working on a wide range of well known brands such as Telegraph, Mirror, Daily Mail, Scottish Power, ITV Daybreak, Experian, Cheapflights. I was responsible for building and serving affiliate marketing campaigns. Providing high performance solutions for large scale relational databases holding millions of records and managing high volume traffic.

Further Experience

Junior Developer: Attinger Jack Interactive - Jun 2011 · Feb 2012

Junior Developer: Veniti SEO - Jun 2009 · Sep 2009

Junior Developer & Company Director: Media77 - Sep 2008 · Sep 2009

Education

Greenwich University: BSc(Hons) Web Technologies - Sept 2009 · July 2013

Interests

Photography: From an early age I have always had access to professional cameras thanks to my grandmother who held the title of Master of Photography. Playing around in her studio embedded my passion for photography. I find huge joy in the magic of capturing moments.

Snowboarding: Very recently I have discovered the thrill and excitement of learning how to snowboard. Nothing beats carving and free-styling on the fresh powder down the slopes of the French Alps. There is something very unique and zen about snowboarding, I love the mountains, especially the view of the crystal blue sky's cut by the towering peaks of mountains.
